## Trip Overview

Situated 230km north of the Arctic Circle, Hotel Jeris and Hotel Harriniva are both owned and run by the Pietikäinen family and offer family-friendly accommodation and an excellent choice of winter activities.

Guests can choose to stay at either hotel during their pick and mix winter activity holiday. Simply decide when you want to travel and for how long (we recommend a minimum stay of three nights) then match your stay to the activities listed in the '[Activities](#)' tab. There are snowmobile safaris, dog sledding adventures, forest forays on snowshoes, ice fishing trips, Northern Lights excursions and a host of other exceptional

family experiences to choose from. You are all sure to have great fun sitting down together to make your choices.

Jeris provides families with the picture-perfect backdrop; situated on the edge of a frozen lake in the far north of Lapland, it is surrounded by a pine forest, all of which are covered in snow for the wonderful winter months. Jeris offers families a choice of two types of accommodation and you can enjoy either hotel rooms or delightful winter cottages which are dotted around the forest within 20 minutes' walk from the main building.

If you stay in one of the cosy cottages you'll also have access to your own private sauna each day and no matter where you stay you can enjoy the facilities down at the lakeside spa pools and sauna for an additional cost.

Harriniva is a wonderful destination for families and the hotel rooms are comfortably furnished with wooden Scandinavian décor. The on-site sled dog centre makes a family husky safari almost mandatory here and The Aurora Wellness Centre on the banks of the river, which offers a wide range of therapies and treatments, is also well worth a visit during your stay.

Please note that all accommodation and activities are subject to availability at the time of booking.

Flights, transfers, half board and cold-weather clothing for the duration of your stay are all included in your holiday.

**Please note:** activity schedules are subject to change. Duration of activity includes transfer times and breaks, and all distances are approximate. Some activities require a minimum number of participants to operate and are subject to availability.

**Husky safaris:** Children over 15 years can usually drive a husky team themselves but this depends completely on the size of the child and their ability. The activity provider reserves the right to decide the arrangements for children according to the weather conditions and the child's ability on the day. All decisions are final and in the interest of safety. Children between 5 - 14 years of age sit in the guide's sled during safaris. We recommend only short husky safaris for young children.

**Snowmobile safaris:** The driver of a snowmobile must be 18 years old and hold a valid driving licence. Children will travel in a sled pulled by the guide's snowmobile on selected safaris where this is offered, older children may be able to travel as pillion on the snowmobile but this is at the discretion of the guide.

**Single snowmobiles:** All snowmobile safaris are based on two people sharing. If this is not possible in your party then the single snowmobile supplement will be automatically applied.

## Arctic Sauna World

This may well be a favourite with the grownups as this trip is all about relaxation as you enjoy the lakeside well-being facilities.

Saunas are a traditional Finnish pastime and at Jeris, you can enjoy the wonderful lakeside surroundings as well as the different sauna experiences.

The four saunas each represent the four elements; earth, air, fire and water, as these are found in all traditions and shamanic wellbeing rituals. These elements combine to create a fifth, steamy löyly, the spirit of sauna. Each element is represented by Finnish gods or goddesses, as the protectors of the saunas:

**Sauna of Tapio (Earth).** Tapio is the antlered king of the forest and in this sauna, you will feel the earthly and forest surroundings of the Finnish wilderness. Created from wood, tiles and natural stone, the sauna is split into four areas, north, east, south and west, each providing a different kind of löyly from mild to hot.

**Sauna of Ukko (Fire).** Ukko is the king of all gods and master of lightning, fire and air. This smoke sauna is the most traditional, and a favourite among the Finns. The wood heating process carries the smoke throughout to create a dark colouring, smokey scent and if you choose, a fiery heat.

**Sauna of Vellamo (Water).** Vellamo is the goddess of water and the ruler of lakes and rivers. This sauna has a panoramic view over Lake Jeris, a holy place for Sámi people, with its waters reflecting light onto the sauna walls it offers an incredibly calming atmosphere. The soft and moist löyly means you can stay in for longer for extended relaxation.

**Sauna of Ilmatar (Air).** Ilmatar is the goddess of wind, and the first mother in the beginning of times. Made from wood and natural stone, this sauna has no fire or thick walls - instead infrared heaters are situated inside a traditional kota for a soft and gentle heat. Think of this as half sauna, half relaxation room.

The very brave (and healthy) can also take an adventurous dip into the ice pool!

**Minimum age:** 4 years old

**Available:** Open everyday from 1pm (Jeris) and Tuesday and Saturday at 3.30pm (Harriniva; includes transfer)

## Arctic Sauna World with Shaman

The newly renovated Arctic Sauna World makes for the ideal little arctic oasis if you want some time to relax during your holiday. Saunas are a huge part of Finnish tradition and culture, with the earliest records dating back to 7000BC! It really is a huge way of life and a real must-do during your time in Finland.

During this activity, you will learn about the history of the sauna and the traditions of how to relax and connect with nature. Arctic Sauna World was designed around the 4 elements: Tapio (the earth sauna), Ukko (fire sauna), Ilmatar (air sauna) and Vellamo (water sauna) represent the elements through our mythological gods and goddesses. A traditional local drink will be served and a shaman will make a ceremony calling on the power of the 4 elements.

Type A winter cottages (30 square metres) are, on the whole, the closest to the hotel and are ideal for families with small children.

The cabins can vary in size but all sleep from two to four people in one spacious room with

a sleeping alcove for two people (generally with a double bed) and a pull-out sofa bed for two more. They are all privately-owned and so the décor and style can vary, but each has a cosy wood-burning stove, clothes-drying cupboard, kitchenette, television, shower room, toilet and a private sauna.

All meals are served in the hotel restaurant.

Cabin guests will receive a small 'starter pack' of firewood. Further wood supplies can be purchased locally for approximately 10 euros.

**Please note:** a limited number of hairdryers are available from reception.

## Jeris Winter Cottage Type B

Type B winter cottages (63 square metres) sleep from four to six people and are ideal for families of four or more. There is a living room area with kitchenette and wood-burning stove, one bedroom for two people and a mezzanine loft area (please note that this is accessed by a steep ladder so is not suitable for small children) which can sleep up to four more.

The cottages are all privately owned and so some contents and décor may vary, but all are equipped with a clothes drying cupboard, sauna, TV, shower and toilet room.

The cosy winter cottages are located in the forests which surround Jeris; the furthest being across the quiet road and tucked in the trees around a 15-minute walk from the main building. Your luggage will be transferred for you on arrival.

Cabin guests will receive a small 'starter pack' of firewood. Further wood supplies can be purchased locally for approximately 10 euros.

## Jeris Winter Cottage Type C

Type C winter cottages (70 square metres) are the largest available and sleep from four to seven people. There are two bedrooms (each for two people) downstairs and a loft sleeping area for a further two (or three if you don't mind being very cosy!) people accessed via a steep staircase (not suitable for small children).

As with all the cottages, there is a log-burning stove, clothes drying cupboard, kitchenette, sauna, TV, shower and toilet room. They can vary in layout a little and as they are privately-owned, the décor is determined by the owner's personal choice.

They are located in the forests which surround Jeris; the furthest being across the quiet road, and tucked in the trees between a 10 and a 20-minute walk from the main building. Your luggage will be transferred for you on arrival. All meals are served in the hotel restaurant.
